

HEINZES FAVORED IN ODD LOANS BY HAMILTON BANK

Temporary Receiver White Reports One of \$80,000 to F. Augustus and Another of \$100,000 to Otto Were Not Properly Authorized.

Frank White, former First Deputy Attorney-General at the State Capitol, who was appointed temporary receiver of the Hamilton Bank and its six branches, all in New York County, to-day reported to Attorney-General Jackson the discovery of banking methods in that instiaution which require the attention of the District-Attorney.

Mr. White has found a record on the books of the Hamilton Bank of the following loans, which speak for themselves:

Dust Combustion Crash Is Followed by Bursting of Boiler in Collieries of Consolidation Coal Company at Monongah, W. Va.

VICTIMS HAVE NO CHANCE, AND ALL THOUGHT DEAD.

Somebody Else Must Take Up the Mine Props Blown Up Through Shafts and Clear Across River, While Concussion! Is Felt Eight Miles Away-Earth Seemed Rent by the Crash.

> FAIRMONT, W. Va., Dec. 6.-At least 500 men are reported killed in a terrific double explosion which wrecked mines Nos 6 and 8 of the Consolidation Coal Company at Monongaz, six miles from here, to-day

- The first explosion, caused by dust combustion, occurred in Mine No. 6 and was followed by the blowing up of the boiler-house in No. 8. The entry to No. 8 caved in and filled up, cutting off the escape of the 500 men at work there. As the two colleries were connected there was no chance of the victims getting out.

Undoubtedly a great number were killed instantly, as the shock was tremendous. The very earth seemed to be rent and the props from the mine were not only blown out of the entry, but were hurled by the force of the explosion clear across the west fork of the Monongahela River.

Several of the miners had a miraculous escape by being blown through an air hole to the surface. All, however, were more less in-

Late this afternoon the rescuing force was greatly hampered by smoke that sifted through openings in the ruins, indicating that the mine was on fire. If the flames gain headway, a new horror will be added to the disaster.

It is feared that the disaster will turn out to be the worst in the history of mining in this country.
